NOTE #2: We are toying with the idea of an alert system for #peer_help. This system will be OPT-IN, meaning you can join the role on your own. The purpose will be to give an option to goons who want to be alerted about situations when a goon might be intending to harm themselves and we are reaching for lookouts for them. The hope is the enough goons sign up for the role and in the event of an emergency we only @ping that role instead of the whole server. At this point that the role is new while it takes traction if an emergency occurred, we would ping both **everyone** and the role SA911 but if enough (over 1k) sign up for the role then we might just do alerts on that role only. To opt-in you can type anywhere you see the 'Bro'bot by typing !join-role SA911 or to opt-out: !leave-role SA911. --Thanks!

Wed April 3rd TT makes a **public** announcement describing a new opt-in role, SA911. That same day user negrostrike noted in the GBS channel that joining this role gave access to an admin-only room

 **negrostrike** 04/03/2019
heh
i joined sa911 and i can see the admin channel now i guess?

It was discovered that this room had been set up specifically for the character assassination and expulsion of an SA discord admin for what would later seem to be political reasons.

for the time being lets keep this under this channel.... but basically we are looking to demote taylor today and most likely remove him from the server once Kale has the things in place so we can blacklist auths from SA Discord.

@FAT32 SHAMER what does Trap jokes are?
whats Trap?
Trump shit?

People who had nothing to do with it were branded as white nationalists and outed

 **Tempus Thales** 10-Apr-18 01:21 AM
Hori, Rufus and Sabanator are people of interest...

 **IAmKale** 10-Apr-18 01:21 AM
In what way?

 **Tempus Thales** 10-Apr-18 01:23 AM
those three guys are just Tay's little white nationalist friends trying to concern troll you

 **Vertebraker** 10-Apr-18 01:24 AM
i wouldn't read to much into it honestly, they are peons. I kind of enjoy watching them complain and try to shift blame on others

Immediately after the banning, TT noticed that banning one of the most active and engaged admins had a noticeable effect on the server's overall activity levels

Wherein it is revealed just how much of a giant insecure baby TT really is.

Because of the sa911 role fuckup this whole kangaroo court was leaked almost ONE WHOLE YEAR after these incidents. Naturally much comedy followed, and that would have been the end of it except

TEMPUS THALES HAD POSTED PERSONALLY IDENTIFIABLE INFORMATION ABOUT HIMSELF, FAT32, AND IAMKALE IN THIS CHANNEL

TT got on Kiwifarms radar after some heavy handed incompetence in the Lowtax discord server, where they noticed that he has HIS REAL FIRST AND LAST NAME on his PUBLIC DISCORD PROFILE

All this happened because the SA911 role in discord was not properly configured before public release. However, instead of admitting the mistake and apologizing, TT concocted a cover story about BroBot being hacked.

BROBOT WAS NEVER BROKEN OR HACKED. ACCESS TO AN ADMIN CHANNEL HAPPENED ONLY BECAUSE TT FUCKED UP THE SA911 ROLE PERMISSIONS IN DISCORD

TEMPUS THALES MASSIVE INCOMPETENCE CAUSED THE DOXXING OF HIMSELF AND TWO OF HIS FRIENDS

And instead of apologizing and working to correct the mistake, he doubled down on his cover story which has had massive repercussions all over the GDN network

He allowed his friend to work almost 10 hours fixing a non existant breach, instead of just admitting and apologizing there was no hack

One of the largest servers affected was the gaming community of Serious Overchill, where FAT32 was a founding member.

SROC went into immediate damage control and began nuking all their moderator chats *for no reason*

TT Today at 10:22 PM
I've been dealing all morning with the doxxing of two of my friends, and their threat to being SWOTTED... I also had to with the help of [@Rejd](#) and [@Kimsema](#) figure out how Taylor Swift and his gang was getting hold of so much info, to try and dox and harass and invade privacy of anyone running BroBot, and it was thanks to Rejd and Kim that we spotted the outdated API that was causing all this bullshit, I have had 2 mods and 1 admin quit because they got afraid and this shit was too much for them to handle...

This screenshot is a W I D E B O Y

Of course instead of admitting he was responsible for everything, TT simply deflects and defames

No doxxing of any kind is revealed in this outline, just the true sad story of gross incompetence and dishonesty
